VILLA
M

STIKOVICA / DUBROVNIK

Vila M is brand new villa on the market and works have been concluded in 2022, but with oldest cornerstone In early 60's well known artist Milovan Stanić created entire project by himself. Villa walls, terraces as well as the basement area has been built... but then all works got quite.

His family's strong connection to the project is what made them finish the villa and they adjusted the project to make some sort of Milovan's contemporary sustainable museum as he wanted it to be.

The 80m2 basement is an open space gallery to honour his work and creations.

The idea of an open space and fluidity has been kept and maintained as all rooms gravitate to the porch style terraces and have magnificent sea view. 170m2 of "closed space" is in synergy and continues with 200m2 of terraces. True summer residence with private sea access that triumphs effortless elegance, simplicity and contemporary design that gets along with the nature beautifully.
